# Highlights

### Built-in desktop stand
The integrated desktop stand on the back of the case allows convenient, hands-free video viewing on any flat surface.

### Double your battery capacity
Now you can talk, surf and enjoy the music and videos on your iPod or iPhone for nearly twice as long with double the battery capacity provided by the compact, lightweight battery.

### Hidden power-indicator light
Discreet and energy conscious, the hidden LED light appears with the push of a button to let you know the power status of your battery pack at a glance.

### Works anywhere
Even if you're not near a wall or car charger, you can recharge your iPod or iPhone battery with the convenient battery pack. The intelligent battery pack supplies power first, so you can remove the pack after use and still have a full iPod or iPhone battery.

### Acoustic channel directs sound
Instead of blocking your speakers, the acoustic channel at the base of the case directs the sound outwards and towards you for an optimised sound experience.

### Case with integrated battery
Don't just protect your iPhone – power it! Now you can talk, surf and enjoy the music and videos on your iPhone for nearly twice as long with the power supplied by the slender, lightweight battery that's seamlessly integrated into the back of the case.
